

INSTRUCTIONS

1. Read and sign informed consent.
2. Complete the background survey.
3. Practice how to use Graffiti and keyboard tapping for 5 minutes.
4. Feel free to ask questions before the experiment begins. You are not allowed to ask for help during the experiment.
5. Write 12 addresses given to you one by one using first Graffiti and then keyboard tapping. You should complete writing all addresses in Graffiti before you proceed to keyboard tapping.
6. Write the information in each field of the address exactly to the corresponding field on Palm Pilot.
7. Before proceeding to the next address, you should complete the address you are writing exactly as in the paper given to you. If you make errors, you should correct them before beginning to write a new address.
8. You should use only Graffiti when you are tested on Graffiti and vice versa. Please, do not switch to other method while you are using one of them.
9. Do not rush but do the best you can. Not only the time completing the task but also the accuracy of writing is important.
10. Use the Graffiti Quick Reference whenever you need it.
11. We will record the time for completing each address and the number and type of errors you made. You will be warned when you make mistakes and do not realize them.
12. After writing all addresses, please complete the user satisfaction survey.

Thank you very much for your help and cooperation.
